Specific Programme PEOPLE = Marie Curie Actions

Overall strategic objective:
Make Europe more attractive for researchers.

„[The specific programme PEOPLE] aims to strengthen, quantitatively and qualitatively, the human potential in research and technology in Europe, by stimulating people to take up the profession of a researcher, encouraging European researchers to stay in Europe, and attracting to Europe the best researchers from the entire world.“

(PEOPLE work programme 2009, p. 3)

Early-stage researchers:

- are in the first four years (FTE) of their research careers (starting at the date of obtaining a degree which would formally entitle them to embark on a doctorate)

Experienced researchers:

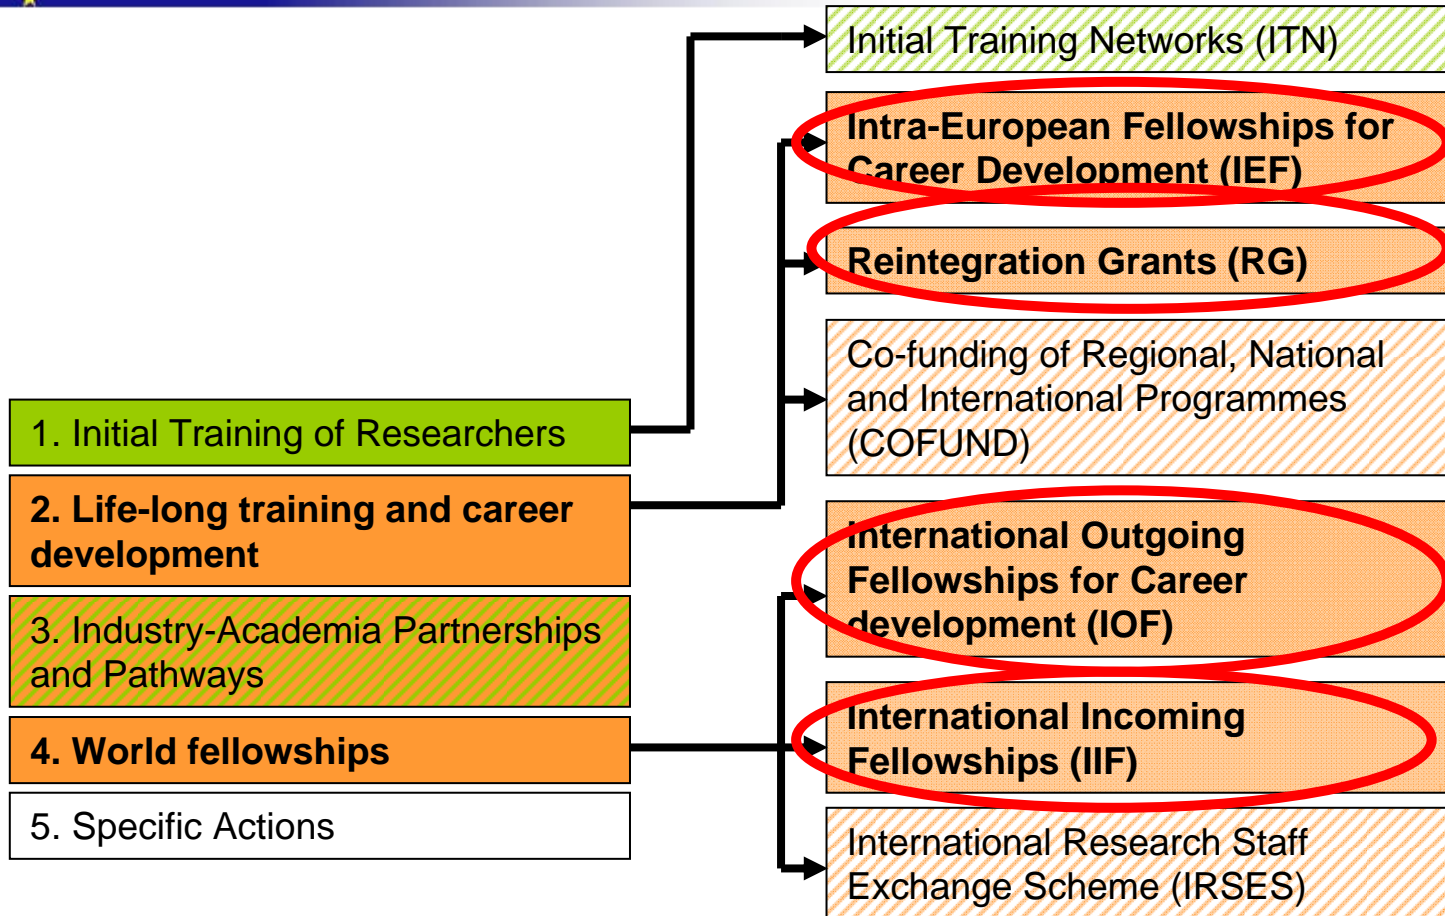

- are in possession of a doctoral degree, independently of the time taken to acquire it

OR

- have at least four years (FTE) research experience

„At the time of the relevant deadline for submission of proposals, [...] researchers **must not have resided or carried out their main activity** (work , studies, etc) **in the country of their host organisation for more than 12 months in the 3 years immediately prior to the reference date.** Short stays, such as holidays, are not taken into account. As far as international **European interest organisations** or international organisations are concerned, this rule does not apply to the hosting of eligible researchers, however the appointed researcher must not have spent more than 12 months in the 3 years immediately prior to the reference deadline for submission of proposals [...], in the same appointing organisation.“

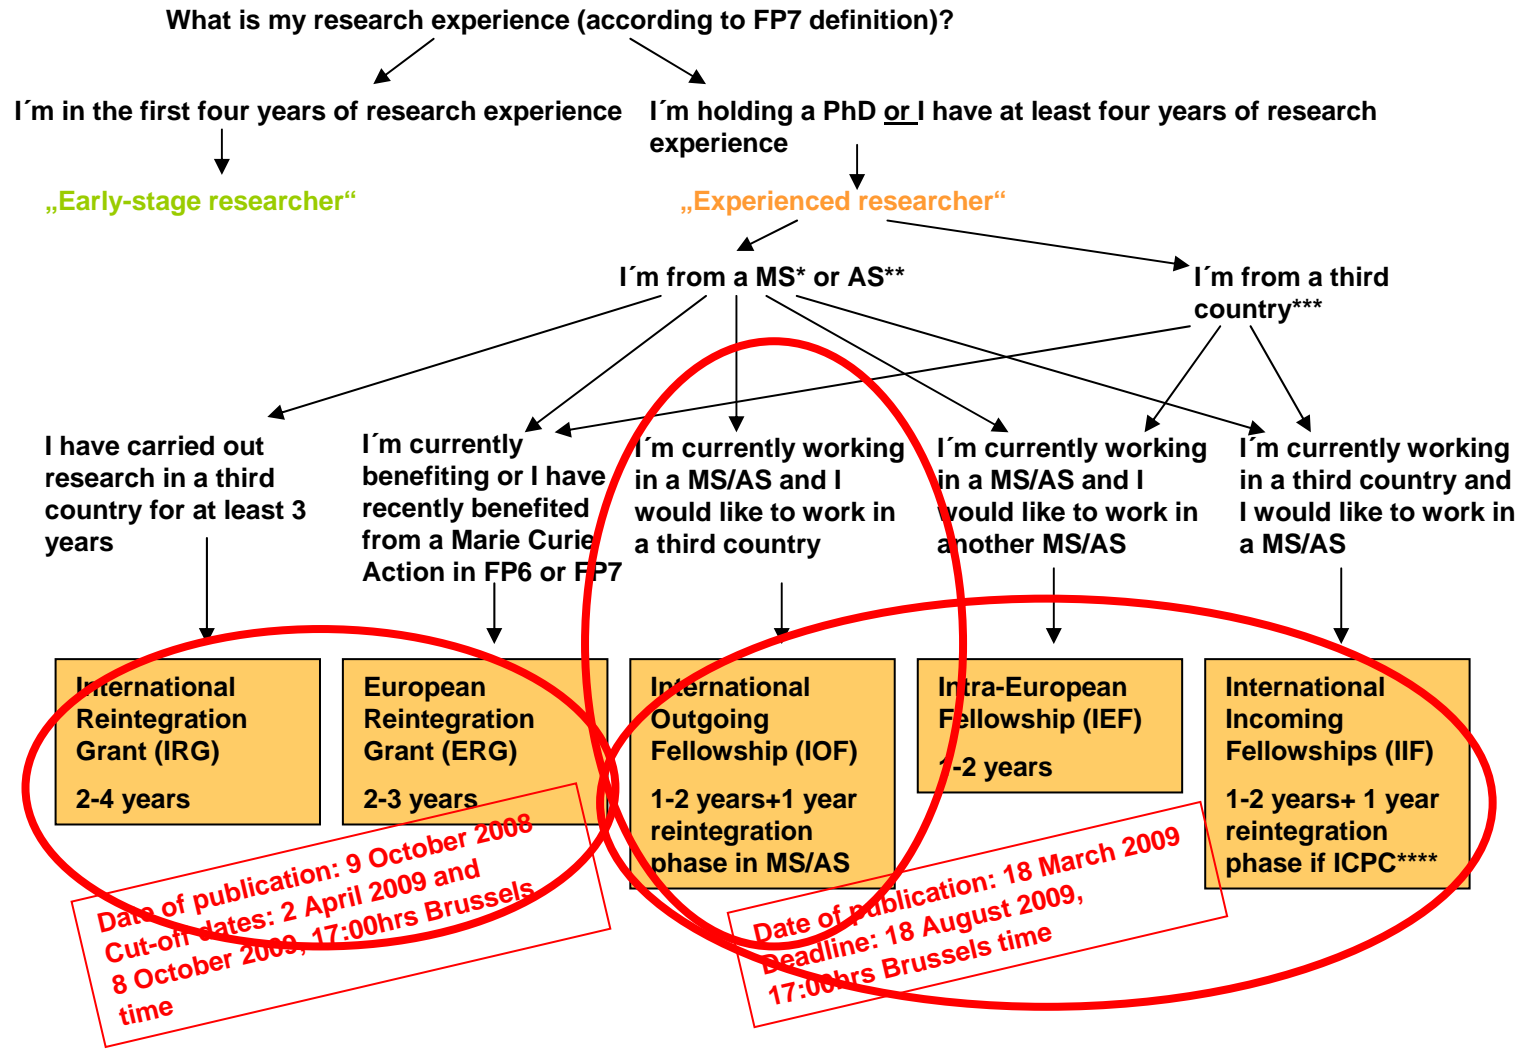

= proposal submitted by one or several organisations („host-driven actions“)

= proposal submitted by an individual researcher in conjunction with the host organisation („researcher-driven actions“)

Individual grants and fellowships

Date of publication: 9 October 2008
Cut-off dates: 2 April 2009 and 8 October 2009, 17:00hrs Brussels time

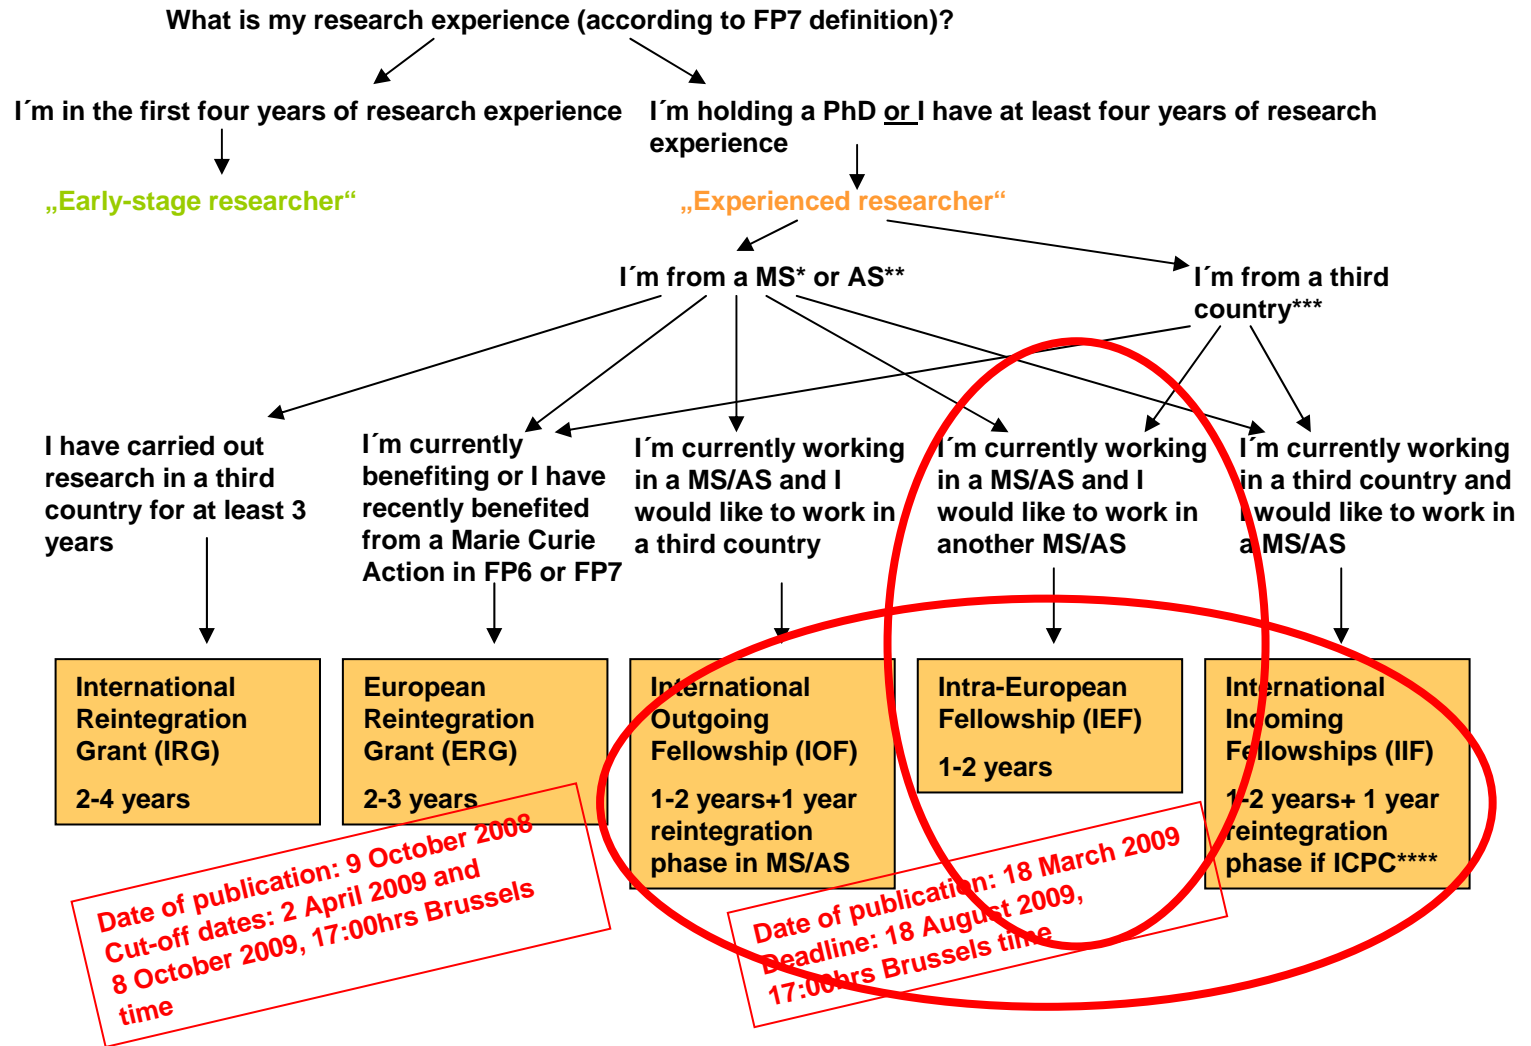

Date of publication: 18 March 2009
Deadline: 18 August 2009, 17:00hrs Brussels time

*EU Member State
 **Associated countries to FP7 (Croatia, FYR Macedonia, Iceland, Israel, Liechtenstein, Norway, Serbia, Switzerland, Turkey, Albania and Montenegro)
 ***countries which are neither EU Member States nor Associated countries
 **** International Cooperation Partner Countries (cf. PEOPLE work programme, Annex 1)

- Objective: new research competences and contact network acquired in a third country help advance the research career in Europe towards professional maturity and independence
- 1-2 years research stay in third country and mandatory reintegration phase in MS or AS of 1 year
- Individual applies together with the host institution (return host)
- the research project should be coherent for the total duration of the fellowship (outgoing and reintegration phase)

Individual grants and fellowships

*EU Member State

**Associated countries to FP7 (Croatia, FYR Macedonia, Iceland, Israel, Liechtenstein, Norway, Serbia, Switzerland, Turkey, Albania and Montenegro)

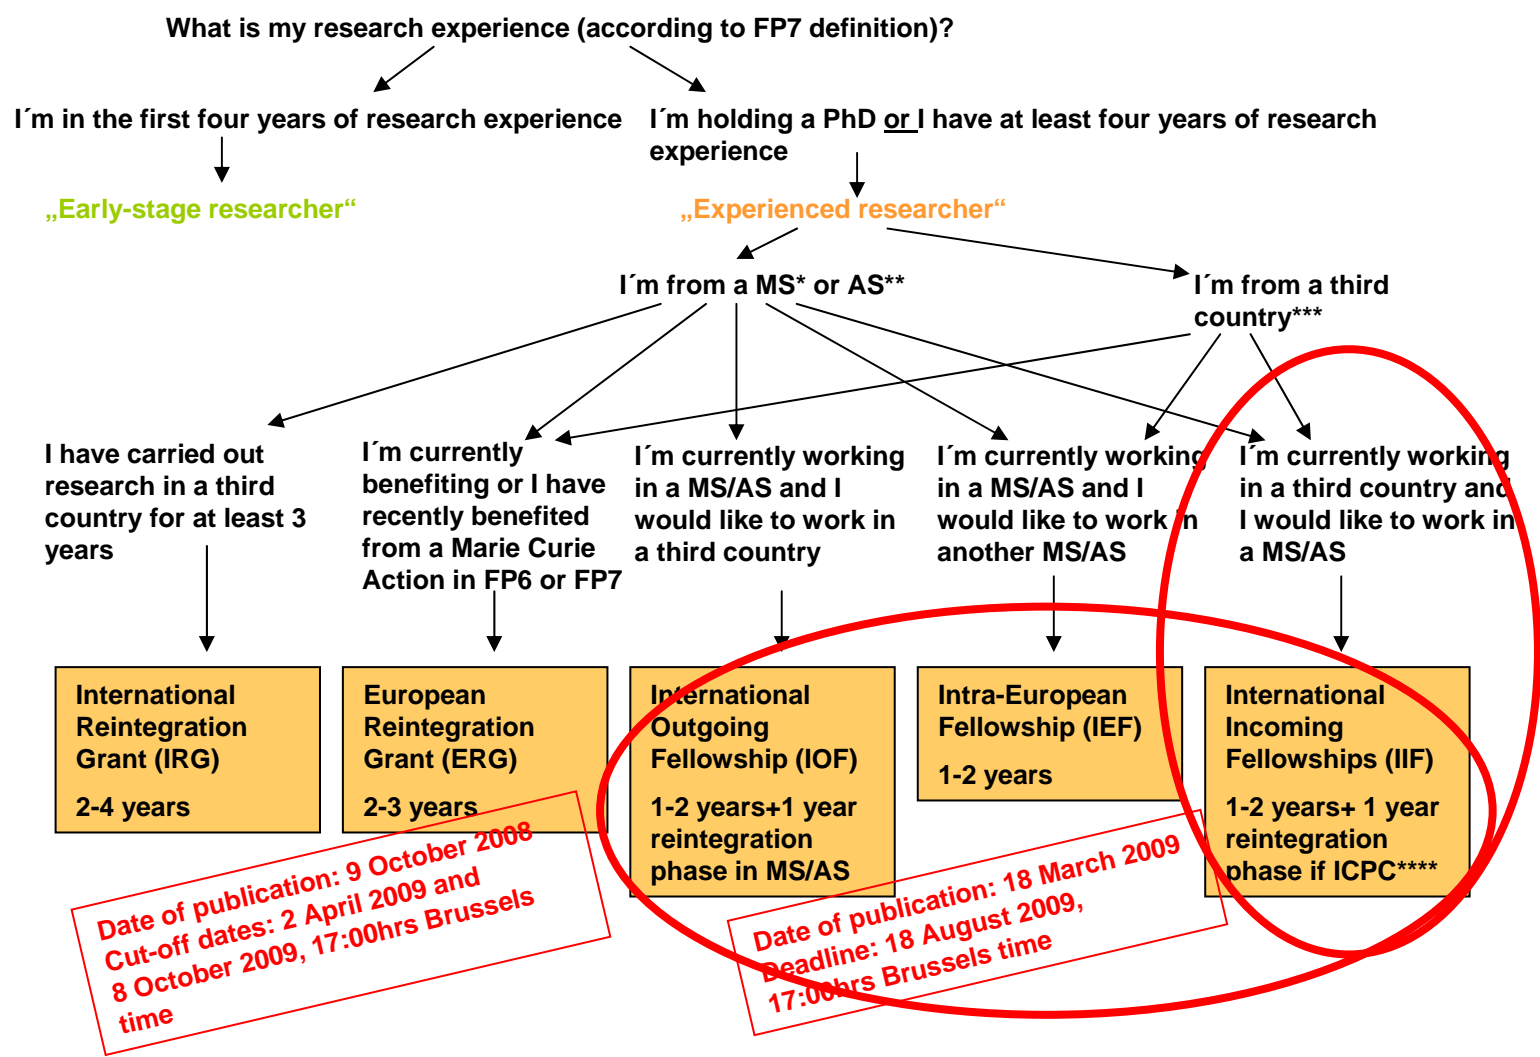

***countries which are neither EU Member States nor Associated countries

**** International Cooperation Partner Countries (cf. PEOPLE work programme, Annex 1)

- Objective: career development through competence diversification to reach and/or to reinforce a position of professional maturity/independence or to resume a research career after a break
- 1-2 years research stay in another MS or AS
- Individual applies together with the host institution
- the research project should help to significantly advance the career and should not represent a temporary solution

Individual grants and fellowships

*EU Member State
 **Associated countries to FP7 (Croatia, FYR Macedonia, Iceland, Israel, Liechtenstein, Norway, Serbia, Switzerland, Turkey, Albania and Montenegro)
 ***countries which are neither EU Member States nor Associated countries
 **** International Cooperation Partner Countries (cf. PEOPLE work programme, Annex 1)

- Objective: encourage researchers who have been working in third countries to work in research projects in Europe, with the view to sharing knowledge and developing mutually beneficial research cooperations
- Individual applies together with the host institution
- possible return phase for researchers from ICPC countries: support for the application of the acquired knowledge in the country of origin

1. Monthly living allowance * country correction coefficient
2. Monthly mobility allowance * country correction coefficient
3. Travel allowance
4. Career exploratory allowance
5. Contribution to the participation expenses of eligible researchers
6. (Management activities + overheads) * country correction coefficient

- The Specific Programme IDEAS is implemented by the **European Research Council (ERC)**
- European Research Council (ERC) is the first pan-European funding agency for Frontier Research

Frontier Research: a new understanding of basic research. Frontier research avoids distinctions between „basic“ and „applied“ research, between „science“ and „technology“ and between traditional disciplinary boundaries. Projects are „high-risk high-gain“

“Retain – Repatriate – Recruit”

- increase competition, recognition and international visibility for excellent individual scientists and scholars in Europe

ERC Advanced Investigator Grant: attract and reward established independent research leaders

- improve career opportunities and independence, especially for young researchers

ERC Starting Independent Researcher Grant: attract and retain the next generation of independent research leaders

- support of “Individual teams” (Principal Investigator her/his research team)
- all fields of research are eligible
- scientific excellence as the sole criterion for selection
- PI applies together with host institution
- host institution commits to conditions of independence for PI
- research project must be carried out in EU member state or Associated country
- “portability” of grants
- Grant covers 100% of total eligible costs + <20% for indirect costs

- **funding** of up to 2.000.000 EUR for a **duration** of up to 5 years
- calls are published once a year
- next call: to be published in summer 2009, with **deadlines in autumn 2009**
- current **reapplication rule**: “No PI who has submitted an eligible proposal to a Starting Grant call may apply to the next Starting Grant call, **unless her/his proposal was evaluated above the quality threshold during the 2nd step** but not funded due to insufficient available budget”

- researchers of **any age, any nationality**, residing in any country of the world at the time of application
- researcher must be at the stage at which s/he is **starting or consolidating** her/his own **independent research team/programme**
- PI must have been awarded his/her first PhD (or equivalent doctoral degree) **at least 3 and less than 8 years prior to the publication date of the call for proposals** (extensions possible for eligible career breaks)

- you must have already shown the **potential for research independence** and **evidence of scientific maturity**: at least one important publication without the participation of your PhD supervisor
- you must be able to demonstrate a **promising track-record of early achievements** (appropriate to your research field and career stage): **significant publications (as main author)** in major international peer-reviewed multidisciplinary scientific journals, or in the leading international peer-reviewed journals in your respective field, **invited presentations** in well-established international conferences, **granted patents, awards, prizes** etc.

- go to <http://cordis.europa.eu/fp7/dc/index.cfm> for all relevant documents (work programme, Guide for Applicants)
- use of web-based tool EPSS mandatory
- submit well before the deadline (17hrs Brussels time)!!
