- include individual actions

Overall strategic objective:
Make Europe more attractive for researchers.

„The Specific Programme [People] aims to strengthen, quantitatively and qualitatively, the human potential in research and technology in Europe, by stimulating people to take up the profession of a researcher, encouraging European researchers to stay in Europe, and attracting to Europe the best researchers from the entire world.“

(PEOPLE work programme 2011, p. 4)

Early-stage researchers:

- must be [...] in the first four years (FTE*) of their research careers and have not yet been awarded a doctoral degree.
- ⇒ starting at the date of obtaining a degree which would formally entitle them to embark on a doctorate

Experienced researchers:

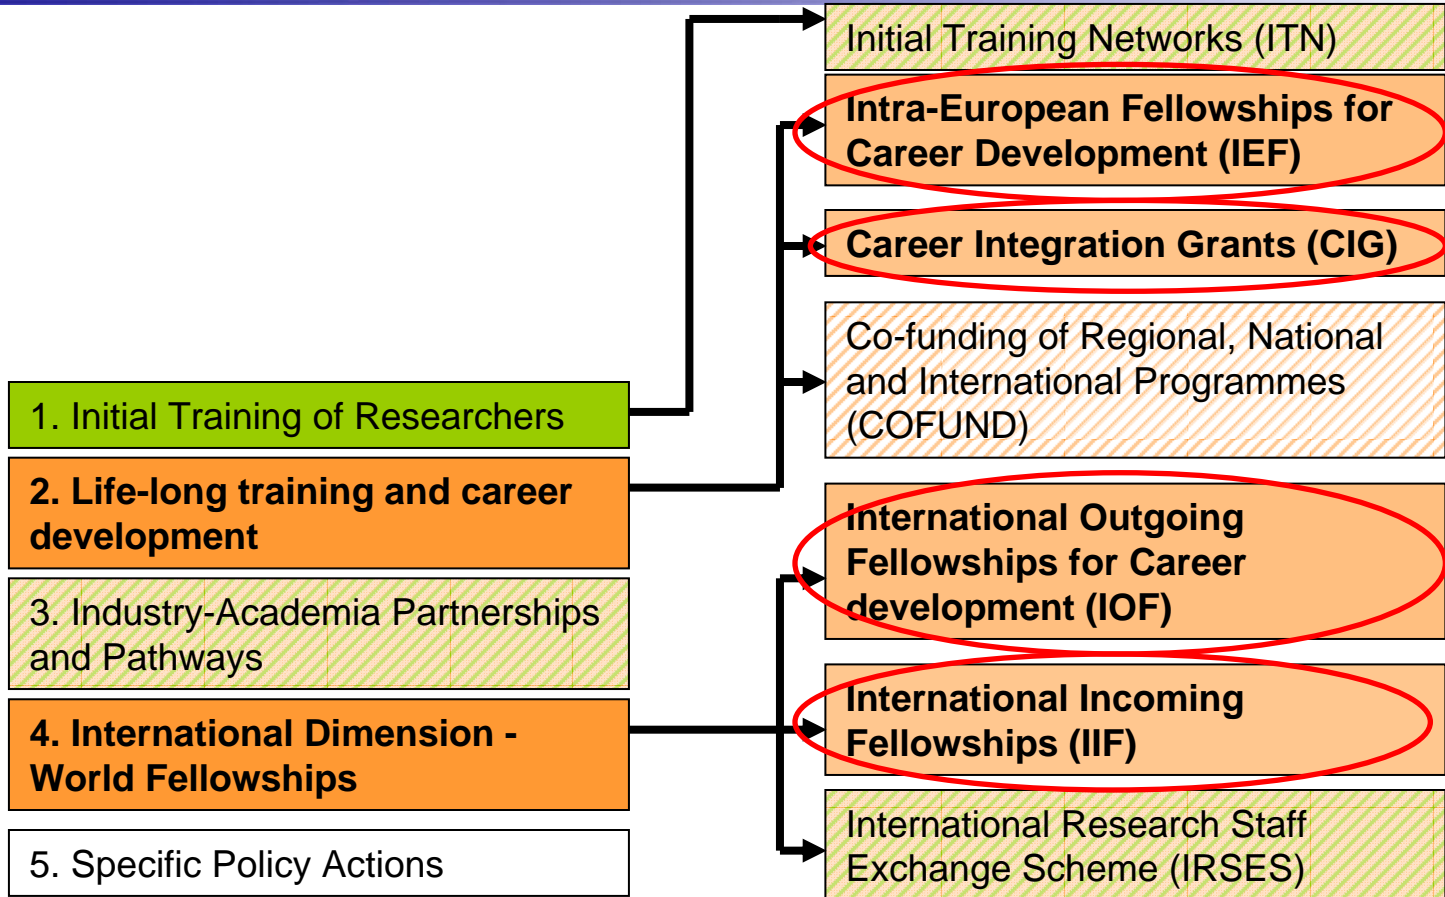

- must at the time of the relevant deadline for submission of proposals [...] be in possession of a doctoral degree
- OR
- have at least four years (FTE) of research experience

*full-time equivalent

„At the time of the relevant deadline for submission of proposals, [...] researchers **must not have resided or carried out their main activity** (work, studies, etc) **in the country of their host organisation for more than 12 months in the 3 years immediately prior to the reference date**. Compulsory national service and/or short stay, such as CERN, ESA, ESO... **European interest organisations** or international organisations are concerned, this rule does not apply to the hosting of eligible researchers, however the appointed researcher must not have spent more than 12 months in the 3 years immediately prior to the reference deadline for submission of proposals [...], in the same appointing organisation.“

(PEOPLE work programme 2011, p. 7/8)

Objectives

- reinforce excellence, dynamism and creativity in European research
- improve the attractiveness of Europe
- **ERC Advanced Investigator Grant:** attract and reward established independent research leaders
- **ERC Starting Independent Researcher Grant:** attract and retain the next generation of independent research leaders

- scientific excellence as the sole criterion for selection
- PI applies together with host institution
- host institution commits to conditions of independence for PI
- research project must be carried out in EU member state or Associated country
- “portability” of grants
- Grant covers 100% of total eligible costs + up to 20% for indirect costs

- Objective: improve career opportunities and help to gain independence
 - **funding** of up to 1.5 Mio. EUR for a **duration** of up to 5 years, in exceptional cases up to 2 Mio. EUR
 - calls are published once a year
 - next call expected to be published in **summer 2011** with deadlines in **autumn 2011**
- => please consult the work programme/Guide for Applicants to be published this summer for the applicable rules**

- researcher must be at the stage at which s/he is **starting or consolidating** her/his own **independent research team/programme**
- PI must have been awarded his/her first PhD (or equivalent doctoral degree) **at least 2 and less than 12 years prior to the publication date of the call for proposals** (extensions possible for eligible career breaks) > distinction into **starters** (over 2 and up to 7 years) and **consolidators** (over 7 and up to 12 years)

- you must have already shown the **potential for research independence** and **evidence of scientific maturity**: at least one important publication without the participation of your PhD supervisor
- you must be able to demonstrate a **promising track-record of early achievements** (appropriate to your research field and career stage): **significant publications (as main author)** in major international peer-reviewed multidisciplinary scientific journals, or in the leading international peer-reviewed journals in your respective field, **invited presentations** in well-established international conferences, **granted patents, awards, prizes** etc.
