Grants and fellowships in FP7 Specific Programmes

- open to all areas of research („bottom up“)
- include individual actions

Overall strategic objective: Make Europe more attractive for researchers.

„The Specific Programme [People] aims to strengthen, quantitatively and qualitatively, the human potential in research and technology in Europe, by stimulating people to take up the profession of a researcher, encouraging European researchers to stay in Europe, and attracting to Europe the best researchers from the entire world.“

(PEOPLE work programme 2012, p. 4)

Early-stage researchers:

- must be [...] in the first four years (FTE*) of their research careers and have not yet been awarded a doctoral degree.
→ starting at the date of obtaining a degree which would formally entitle them to embark on a doctorate

~~Experienced researchers:~~

- must at the time of the relevant deadline for submission of proposals [...] be in possession of a doctoral degree
OR
- have at least four years (FTE) of research experience

*full-time equivalent

„At the time of the relevant deadline for submission of proposals, [...] researchers **must not have resided or carried out their main activity** (work, studies, etc) **in the country of their host organisation for more than 12 months in the 3 years immediately prior to the reference date**. Compulsory national service and/or short stays such as holidays are not taken into account. As far as international **European interest organisations** or international organisations are concerned, this rule does not apply to the hosting of eligible researchers, however the appointed researcher must not have spent more than 12 months in the 3 years immediately prior to the reference deadline for submission of proposals [...], in the same appointing organisation.“

(PEOPLE work programme 2012, p. 8)

Activities and funding schemes

1. Initial Training of Researchers

2. Life-long training and career development

3. Industry-Academia Partnerships and Pathways

4. International Dimension - World Fellowships

5. Specific Policy Actions

= proposal submitted by one or several organisations
("host-driven actions")

= proposal submitted by an individual researcher in conjunction with the host organisation
("researcher-driven actions")

„Host-driven actions“

→ You can find positions funded through these actions on

The screenshot shows the CORDIS homepage for the Seventh Framework Programme (FP7). The top navigation bar includes links for About CORDIS, Print, Legal Notice, Search, and Contact, with English (en) selected. Below the header, there are links for European Commission, CORDIS, and Community Research and Development Information Service. The main menu features Home, News, Funding, Projects, Results, Partners, Go local, and a Share button. The FP7 logo is prominently displayed. On the left, a sidebar lists various FP7 services such as FP7 Home, FP7 newsroom, Understand FP7, Participate in FP7, Find a call (Participant Portal), Register your organisation, Prepare and Submit Proposals (EPSS), Get support, Find project partners, Find a project, Find a document, and Register as an Expert (EMM). The right side of the page contains a search interface with fields for 'Enter search term(s)' and 'Project Acronym'. A note states that project details are published after negotiation and signature of the grant agreement. Below these fields is a 'Search' button and links for New Search (Beta), Map Search, Advanced Search, Search all CORDIS, About this service, What's New, Sitemap, and Quick Links. At the bottom, a theme selection dropdown is shown with options like FP7-KBBE, FP7-NMP, FP7-PEOPLE, FP7-POTENTIAL, FP7-REGIONAL, and FP7-TECHNOLOGY, along with a note about holding the control key for multiple selections.

Marie Curie Intra-European Fellowships (IEF)

Criterion 1. S&T QUALITY (award)

(Threshold 3.00/5.00)

Mark: 4.70
Weight: 0.25

Strengths:

Issues to be addressed when assigning an overall mark for this criterion:

- Scientific/technological quality, including any interdisciplinary and multidisciplinary aspects of the proposal.
- Research methodology
- Originality and innovative nature of the project, and relationship to the 'state of the art' of research in the field
- Timeliness and relevance of the project
- Host scientific expertise in the field
- Quality of the group/supervisors

Please use the following structure in your comments to this criterion:

- Strengths of the proposal (in bullet point format):
- Weaknesses of the proposal (in bullet point format):
- Overall comments:
(reflecting the relative importance of the strength and weaknesses above mentioned)
(copy the text above in the comment box)

Criterion 2. TRAINING (award)

The Specific Programme IDEAS is implemented by the **European Research Council (ERC)**: the first pan-European funding agency for Frontier Research

Frontier Research: research in emerging areas which can cover elements of both basic and applied research. Projects are „high-risk high-gain“.

Objective: reinforce excellence, dynamism and creativity in European research, improve the attractiveness of Europe

Funding Schemes

- **ERC Advanced Investigator Grant:** attract and reward established independent research leaders
- **ERC Synergy Grant:** support for groups of 2 – 4 Principal Investigators and their teams
- **ERC Starting Independent Researcher Grant:** attract and retain the next generation of independent research leaders
- **ERC Proof of concept**
support for ideas arising from Starting Grant/Advanced Grant projects => transfer into marketable innovation

- support of “Individual teams” (Principal Investigator and her/his research team)
- all fields of research are eligible
- scientific excellence as the sole criterion for selection
- PI applies together with host institution
- host institution commits to conditions of independence for PI
- research project must be carried out in EU member state or Associated country
- “portability” of grants
- Grant covers 100% of total eligible costs + up to 20% for indirect costs

- Objective: improve career opportunities and help to gain independence
- **funding** of up to 1.5 Mio. EUR for a **duration** of up to 5 years, in exceptional cases up to 2 Mio. EUR
- calls are published once a year
- next call expected to be published in **summer 2012** with deadlines in **autumn 2012**

⇒ please consult the work programme/Guide for Applicants to be published this summer for the applicable rules

- researchers of **any age, any nationality**, residing in any country of the world at the time of application
- researcher must be at the stage at which s/he is starting or consolidating her/his own **independent research team/programme**
- PI must have been awarded his/her first PhD (or equivalent doctoral degree) at least 2 and less than 12 years prior to the publication date of the call for proposals (extensions possible for eligible career breaks)
 - distinction into **starters** (over 2 and up to 7 years) and **consolidators** (over 7 and up to 12 years)

- you must have already shown the **potential for research independence** and evidence of scientific maturity: at least one important **publication** without the participation of your PhD supervisor
- you must be able to demonstrate a promising **track-record of early achievements** (appropriate to your research field and career stage):
 - **significant publications (as main author)** in major international peer-reviewed multidisciplinary scientific journals, or in the leading international peer-reviewed journals in your respective field
 - **invited presentations** in well-established international conferences
 - **granted patents, awards, prizes** etc.

- **interBAT**: Sensory and cognitive ecology of species interactions in bat communities

The screenshot shows the homepage of the Max-Planck-Institut für Ornithologie. The header features the institute's logo (a profile of Minerva) and name, along with navigation links for Intern, Karriere, Kontakt, and English. Below the header, there are two small bird images and a DNA helix icon. The main menu includes Über uns, Forschung, Publikationen, IMPRS, Mitarbeiter, Presse- und Öffentlichkeitsarbeit, and a search bar. A sidebar on the left lists various research groups and projects, including Abteilung Gahr, Abteilung Kempaniers, Abteilung Wikelski, Forschungsgruppe Brumm, Forschungsgruppe Hau, Humboldt-Forschungsgruppe, Forschungsgruppe Quillfeldt, Forschungsgruppe Rattenborg, and Max-Planck-Forschungsgruppe Siemers. The central content area features a large image of bats flying over a thistle plant with a full moon in the background, and the 'erc' logo. Below this image is a section titled 'interBAT - Sensorische und kognitive Ökologie von zwischenartlichen Interaktionen in Fledermausgemeinschaften'. To the right, there are profiles for the research leader (PD Dr. Björn M. Siemers) and other staff members (Dr. Holger Goerlitz and Bruno-Markus Schuller), each with their contact information. At the bottom, there is a brief description of the project's goals and funding.

interBAT - Sensorische und kognitive Ökologie von zwischenartlichen Interaktionen in Fledermausgemeinschaften

Zum Jahresbeginn 2012 startet ein neues Projekt, wofür der Europäische Forschungsrat (European Research Council) Dr. Björn Siemers, dem Leiter der Forschungsgruppe Siemesökologie, ein ERC Starting Grant mit einem Gesamtvolumen von 1,5 Mio EUR zugesprochen hat.

Ziel der Forschungsarbeit wird sein, zwei Hypothesen über das Verhalten und die soziale Welt eurasischer Fledermausarten zu untersuchen: Besitzen Fledermaus Informationen über Verhalten und Ökologie anderer Fledermausarten? Und wirken sich Unterschiede in sensorischen Fähigkeiten auf die Nischenaufteilung zwischen koexistierenden, aber potentiell konkurrierenden Fledermausarten aus?

In den Jahren 2012 und 2013 werden automatisierte Versuchsstationen entwickelt, die im Freiland eingesetzt werden können. Diese Stationen können eigenständig
