New Framework Programme Horizon 2020 (2014-2020)

Specific Programme PEOPLE = Marie Curie Actions

- > include individual actions
- > open to all areas of research
„bottom up“

Overall strategic objective:

Make Europe more attractive for researchers.

„The Specific Programme [People] aims to strengthen, quantitatively and qualitatively, the human potential in research and technology in Europe, by stimulating people to take up the profession of a researcher, encouraging European researchers to stay in Europe, and attracting to Europe the best researchers from the entire world.“

(PEOPLE work programme 2013, p. 4)

Early-stage researchers:

- must be [...] in the first four years (FTE*) of their research careers and have not yet been awarded a doctoral degree.
- ⇒ starting at the date of obtaining a degree which would formally entitle them to embark on a doctorate

Experienced researchers:

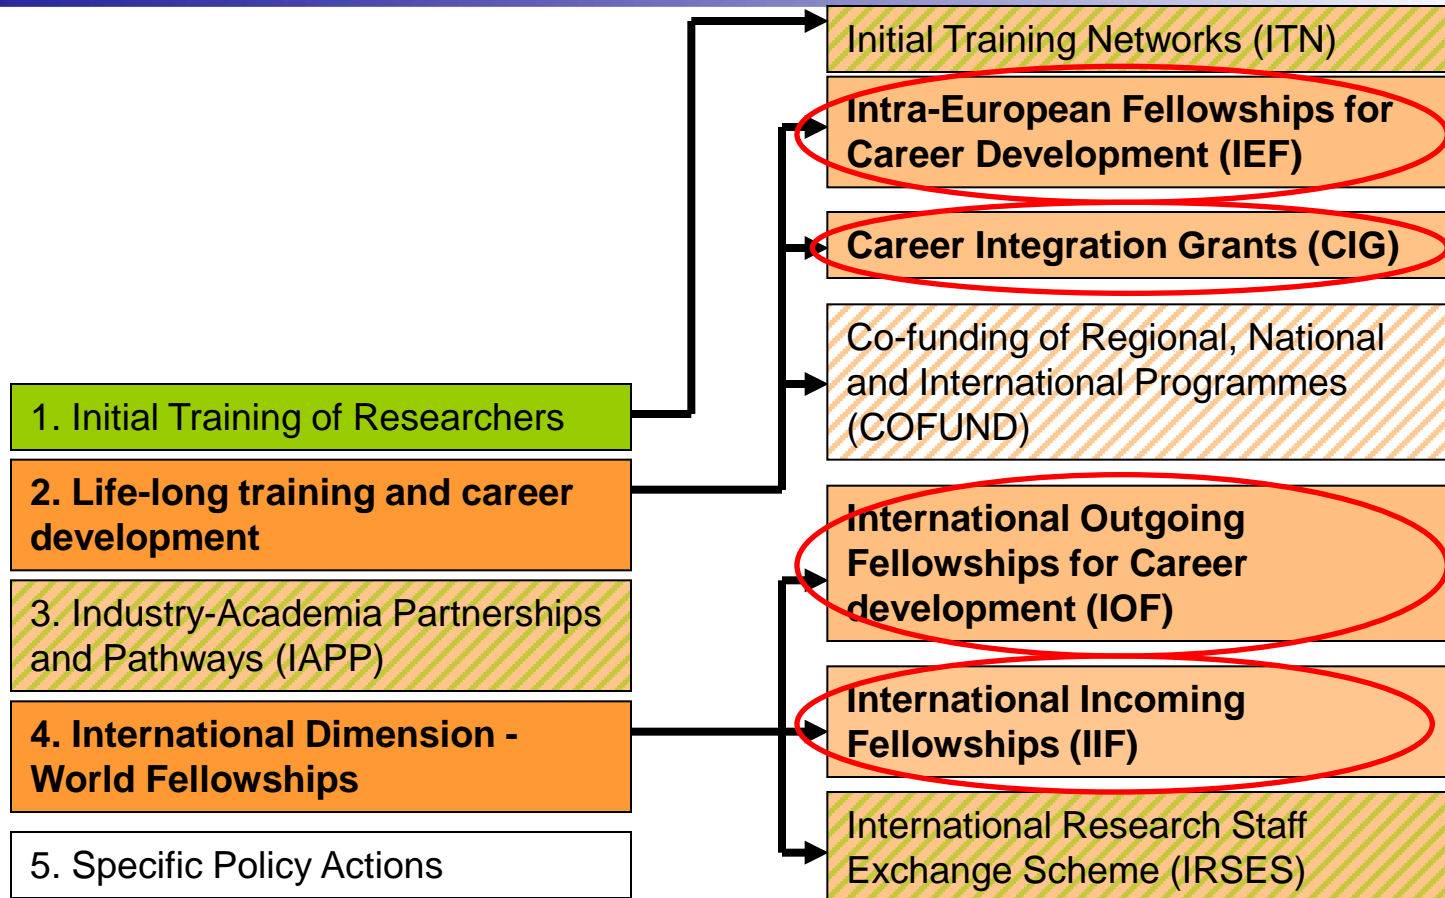

- must at the time of the relevant deadline for submission of proposals [...] be in possession of a doctoral degree
OR
- have at least four years (FTE) of research experience

*full-time equivalent

„At the time of the relevant deadline for submission of proposals, [...] researchers shall **not have resided or carried out their main activity** (work, studies, etc) **in the country of their host organisation for more than 12 months in the 3 years immediately prior to the reference date**. ~~Compulsory national service and/or short stay~~ such as CERN ~~is~~ are not taken into account. ~~As far as international~~ **European interest organisations** or international organisations are concerned, this rule does not apply to the hosting of eligible researchers, however the appointed researcher must not have spent more than 12 months in the 3 years immediately prior to the reference deadline for submission of proposals [...], in the same appointing organisation.“

(PEOPLE work programme 2013, p. 8)

= proposal submitted by one or several organisations („host-driven actions“)

= proposal submitted by an individual researcher in conjunction with the host organisation („researcher-driven actions“)

I'm currently working in a MS/AS and I would like to work in a third country

I'm currently working in a third country and I would like to work in a MS/AS

I will move to a European country because I have been offered a (permanent) position there

Intra-European Fellowship (IEF)

1-2 years

International Outgoing Fellowship (IOF)

1-2 years + 1 year reintegration phase in MS/AS

International Incoming Fellowships (IIF)

1-2 years+ 1 year reintegration phase if ICPC****

Career Integration Grant (CIG)

up to 4 years

Deadline: 14 August 2013, 17:00hrs Brussels time

Next cut-off date: 18 September 2013, 17:00hrs Brussels time

*EU Member State

**Associated countries to FP7 (Albania, Bosnia & Herzegovina, Croatia, Faroe Islands, Iceland, Israel, Liechtenstein, Macedonia, Montenegro, Norway, Moldova, Serbia, Switzerland, Turkey)

***countries which are neither EU Member States nor Associated countries

**** International Cooperation Partner Countries (cf. PEOPLE work programme, Annex 1.1)

Objectives:

- support the career development or restart through competence diversification (multi- or interdisciplinary expertise, intersectoral experience, complementary skills...)
- reach and/or reinforce a position of professional maturity/independence
- Duration: 1-2 years
- the research project should help to significantly advance the career and should not represent a temporary solution
- Individual applies together with the host institution

Objectives:

- reinforce scientific excellence of EU MS/AS
- share knowledge and develop mutually beneficial research cooperations
- Duration: 1-2 years + possible return phase for nationals from ICPC countries: support for the application of the acquired knowledge in the country of origin
- Individual applies together with the host institution

- Monthly living allowance * country correction coefficient
- Monthly mobility allowance * country correction coefficient
- Contribution to the training expenses of eligible researchers
- Contribution to overheads * country correction coefficient

You can find the applicable rates in Annex 3 (p. 65) in the 2013 People work programme.

Funding: Example IEF

A married* IEF-fellow, 8 years** after his PhD, goes to Israel***:

Fellow:	Living allowance:	$58.500 \text{ €} \times 109,8 =$	64.233,00 €
	Mobility allowance:	$12.000 \text{ €} \times 109,8 =$	13.176,00 €

Horizon 2020:

Framework programme for research and innovation 2014-2020

- Industrial Leadership
- Societal Challenges
- **Excellent Science:** reinforcing and extending the excellence of the EU's science base and consolidating European Research Area to make EU's Research & Innovation system more competitive on a global scale
 - *Marie Skłodowska-Curie Actions*
 - *ERC*
 - *Future and Emerging Technologies (FET)*
 - *Infrastructures*
 - *Research Infrastructures*

Preliminary information

Individual Actions

- **Marie Skłodowska-Curie Fellowships:** nurturing excellence by means of cross-border and cross-sector mobility (IEF, IOF, IIF)

Host driven Actions

- **Initial Training Networks:** training of early-stage researchers (ITN)
- **International/Intersectoral transfer of knowledge:** stimulating innovation by means of cross-fertilisation of knowledge
 - personnel exchange programmes between sectors, countries and disciplines
- **COFUND:** funding to existing or new regional and national fellowship programmes for research training and career development of European host institutions

*Call is expected
at the end of 2013/beginning 2014
Expected Deadline is spring 2014*

Frontier Research:

- provides attractive and flexible funding to enable talented individual researchers and their teams to pursue the most promising avenues at the frontier of science
- research in emerging areas which can cover elements of both basic and applied research. Projects are „**high-risk high-gain**“.

Objective: reinforce excellence, dynamism and creativity in European research, improve the attractiveness of Europe

Preliminary information

- support of “Individual teams” (Principal Investigator and her/his research team)
- all fields of research are eligible
- scientific **excellence** as the sole criterion for selection
- PI applies together with host institution
- host institution commits to conditions of independence for PI
- research project must be carried out in EU member state or Associated country
- “**portability**” of grants
- Grant covers 100% of total eligible costs + up to 20% for indirect costs

- researchers of **any age, any nationality**, residing in any country of the world at the time of application
- researcher must be at the stage at which s/he is starting or consolidating her/his own **independent research team/programme**
- PI must have been awarded his/her first PhD (or equivalent doctoral degree) at least 2 and less than 12 years prior to the publication date of the call for proposals (extensions possible for eligible career breaks)

Preliminary information

- you must have already shown the **potential for research independence** and evidence of scientific maturity: at least one important **publication** without the participation of your PhD supervisor
- you must be able to demonstrate a promising **track-record of early achievements** (appropriate to your research field and career stage):
 - **significant publications (as main author)** in major international peer-reviewed multidisciplinary scientific journals, or in the leading international peer-reviewed journals in your respective field
 - **invited presentations** in well-established international conferences
 - **granted patents, awards, prizes** etc.

Preliminary information

- **ERC Advanced Investigator Grant:** attract and reward established independent research leaders
- **ERC Starting Independent Researcher Grant:** attract and retain the next generation of independent research leaders with over **2 and up to 7 years research experience** after doctoral degree (the exact date on the certificate is relevant)
- **ERC Consolidator Independent Research Grant:** attract and retain the next generation of independent research leaders with over **7 and up to 12 years** after doctoral degree
- **ERC Proof of concept**
support for ideas arising from Starting Grant/Advanced Grant projects => transfer into marketable innovation

Preliminary information

Current ERC projects:

- Advanced Grant **String Hunter**: String Theory in the Context of Particle Physics, Gravity & Cosmology
